STUDENT'S CORNER

Friend

When a friend in front of everyone shows us low,
The question arises in our mind: who will I support, a friend or a foe?

But remember that you have kindness to show,
When your friend is down to them you must go.

Remember the good deeds and forget the ones which are bad,
I assure you that helping others will make you glad.
I know that sometimes it makes you feel sad,
But that's nothing that should not drive you mad.

In this huge world every thing is limited
But love is not.
You shower kindness and love to your friend,
You will be showered from almighty God.

A friend is a person to ask what's wrong,
And the one who makes you strong.
The one who spares,
Also the one who cares.

You lose and find your friends like the sea waves,
When you do something good, in their heart it forever stays
A friend will wipe your tear,
To joy forever it will take you near
